### Silvercrest Asset Management Group Inc. Reports Q1 2022 Results

New York, NY – May 5, 2022 - Silvercrest Asset Management Group Inc. (NASDAQ: SAMG) (the “Company” or “Silvercrest”) today reported the results of its operations for the quarter ended March 31, 2022.

#### Business Update

We concluded the first quarter of 2022 with a celebration of our 20th Anniversary in business. Despite volatile economic conditions and markets, we are pleased with Silvercrest’s continued stable progress over time. Our tenure has proven that our firm has the professional resources, ability, and strategy to execute through difficult periods to build a sustainable and enduring business.

Silvercrest’s discretionary assets under management (“AUM”), which drives revenue, increased to \$23.8 billion from the first quarter of 2021, a year-over-year increase of 8.7%. Primarily due to the volatile equity markets during the first quarter of 2022, Silvercrest’s discretionary AUM declined by 5.2% from December 31, 2021, which also led to a quarterly decline in revenue and Adjusted EBITDA<sup>1</sup>. Along with continued progress in growing AUM year over year, the firm’s revenue increased 7.3% from Q1 2021, with \$33.5 million in revenue for the quarter ended March 31, 2022. The firm’s quarterly Adjusted EBITDA<sup>1</sup> was approximately \$10.3 million, or an annualized Adjusted EBITDA<sup>1</sup> run-rate of \$41.0 million, and grew year over year by 6.2%. Adjusted Diluted Earnings Per Share<sup>1</sup> increased 7.1% year over year to \$0.45 per Adjusted Diluted Share<sup>1</sup>. The firm’s first quarter 2022 Adjusted EBITDA margin<sup>1</sup> was 30.6%, a consistently high number for Silvercrest.

Silvercrest’s high net worth business grew its relationships during the first quarter, and we are pleased with incoming opportunities. Our net flows were muted as compared with historical norms. Silvercrest’s institutional equity new business was solid during the first quarter and opportunities remain excellent across Silvercrest’s suite of proprietary equity capabilities. Our sub-advisory relationships continued to add assets during the first quarter of 2022.

Market volatility and uncertainty create long-term opportunities that typically benefit the high-quality of Silvercrest’s capabilities. We have a lot to accomplish to continue building the premiere wealth and asset management boutique in the nation, and we embrace the challenges that come with change.

On May 3, 2022, the Company’s Board of Directors declared a quarterly dividend of \$0.17 per share of Class A common stock. The dividend will be paid on or about June 17, 2022 to shareholders of record as of the close of business on June 10, 2022.

Adjusted diluted earnings per share are further based on the addition of unvested restricted stock units, and non-qualified stock options to the extent dilutive at the end of the reporting period.

<sup>3</sup> We have computed average AUM by averaging AUM at the beginning of the applicable period and AUM at the end of the applicable period.

#### AUM at \$31.2 billion

Silvercrest’s discretionary assets under management increased by \$1.9 billion, or 8.7%, to \$23.8 billion at March 31, 2022 from \$21.9 billion at March 31, 2021. The increase was attributable to client inflows of \$5.7 billion and market appreciation of \$1.5 billion, partially offset by client outflows of \$5.3 billion. Silvercrest’s total AUM increased by \$2.2 billion, or 7.6%, to \$31.2 billion at March 31, 2022 from \$29.0 billion at March 31, 2021. The increase was attributable to client inflows of \$6.3 billion and market appreciation of \$1.7 billion, partially offset by client outflows of \$5.8 billion.

Silvercrest’s discretionary assets under management decreased by \$1.3 billion, or 5.2%, to \$23.8 billion at March 31, 2022 from \$25.1 billion at December 31, 2021. The decrease was attributable to client outflows of \$1.5 billion and market depreciation of \$1.2 billion, partially offset by client inflows of \$1.4 billion. Silvercrest’s total AUM decreased by \$1.1 billion, or 3.4%, to \$31.2 billion at March 31, 2022 from \$32.3 billion at December 31, 2021. The decrease was attributable to client outflows of \$1.5 billion and market depreciation of \$1.1 billion, partially offset by client inflow of \$1.5 billion.

#### First Quarter 2022 vs. First Quarter 2021

Revenue increased by \$2.3 million, or 7.3%, to \$33.5 million for the three months ended March 31, 2022, from \$31.2 million for the three months ended March 31, 2021. This increase was driven by market appreciation in discretionary assets under management and net client inflows.

Total expenses decreased by \$7.5 million, or 29.3%, to \$18.1 million for the three months ended March 31, 2022 from \$25.6 million for the three months ended March 31, 2021. Compensation and benefits expense increased by \$1.0 million, or 5.7%, to \$18.7 million for the three months ended March 31, 2022 from \$17.7 million for the three months ended March 31, 2021. The increase was primarily attributable to an increase in the accrual for bonuses of \$0.7 million, an increase in salaries and benefits of \$0.5 million primarily as a result of merit-based increases and newly hired staff, partially offset by a decrease in equity-based compensation expense of \$0.2 million due to a decrease in the number of vested and unvested restricted stock units and unvested non-qualified stock options outstanding. General and administrative expenses decreased by \$8.5 million, or 107.4%, to (\$0.6) million for the three months ended March 31, 2022 from \$7.9 million for the three months ended March 31, 2021. This was primarily attributable to a decrease in the adjustment to the fair value of contingent consideration related to the Cortina Acquisition of \$8.8 million and a decrease in occupancy and related costs of \$0.1 million primarily due to a decrease in cleaning and maintenance costs, partially offset by an

increase in travel and entertainment expenses of \$0.1 million due to the easing of restrictions related to the coronavirus pandemic, an increase in portfolio and systems expense of \$0.2 million and an increase in sub-advisory and referral fee expense of \$0.1 million.

Consolidated net income was \$12.4 million or 37.0% of revenue for the three months ended March 31, 2022 as compared to consolidated net income of \$4.3 million or 13.9% of revenue for the same period in the prior year. Net income attributable to Silvercrest was \$7.6 million, or \$0.77 per basic and diluted share for the three months ended March 31, 2022. Our Adjusted Net Income<sup>1</sup> was \$6.7 million, or \$0.46 per adjusted basic share and \$0.45 per adjusted diluted share<sup>2</sup> for the three months ended March 31, 2022.

Adjusted EBITDA<sup>1</sup> was \$10.3 million or 30.6% of revenue for the three months ended March 31, 2022 as compared to \$9.7 million or 30.9% of revenue for the same period in the prior year.

#### **Liquidity and Capital Resources**

Cash and cash equivalents were \$57.0 million at March 31, 2022, compared to \$85.7 million at December 31, 2021. As of March 31, 2022, there was \$8.1 million outstanding under our term loan with City National Bank and nothing outstanding on our revolving credit facility with City National Bank.

Silvercrest Asset Management Group Inc.'s total equity was \$86.3 million at March 31, 2022. We had 9,871,990 shares of Class A common stock outstanding and 4,590,798 shares of Class B common stock outstanding at March 31, 2022.

#### **Non-GAAP Financial Measures**

To provide investors with additional insight, promote transparency and allow for a more comprehensive understanding of the information used by management in its financial and operational decision-making, we supplement our consolidated financial statements presented on a basis consistent with GAAP with Adjusted EBITDA, Adjusted EBITDA Margin, Adjusted Net Income, and Adjusted Earnings Per Share which are non-GAAP financial measures of earnings. These adjustments, and the non-GAAP financial measures that are derived from them, provide supplemental information to analyze our operations between periods and over time. Investors should consider our non-GAAP financial measures in addition to, and not as a substitute for, financial measures prepared in accordance with GAAP.

- EBITDA represents net income before provision for income taxes, interest income, interest expense, depreciation and amortization.

- We define Adjusted EBITDA as EBITDA without giving effect to the Delaware franchise tax, professional fees associated with acquisitions or financing transactions, gains on extinguishment of debt or other obligations related to acquisitions, impairment charges and losses on disposals or abandonment of assets and leaseholds, client reimbursements and fund redemption costs, severance and other similar expenses, but including partner incentive allocations, prior to our initial public offering, as an expense. We feel that it is important to management and investors to supplement our consolidated financial statements presented on a GAAP basis with Adjusted EBITDA, a non-GAAP financial measure of earnings, as this measure provides a perspective of recurring earnings of the Company, taking into account earnings attributable to both Class A and Class B shareholders.

- Adjusted EBITDA Margin is calculated by dividing Adjusted EBITDA by total revenue. We feel that it is important to management and investors to supplement our consolidated financial statements presented on a GAAP basis with Adjusted EBITDA Margin, a non-GAAP financial measure of earnings, as this measure provides a perspective of recurring profitability of the Company, taking into account profitability attributable to both Class A and Class B shareholders.

- Adjusted Net Income represents recurring net income without giving effect to professional fees associated with acquisitions or financing transactions, losses on forgiveness of notes receivable from our principals, gains on extinguishment of debt or other obligations related to acquisitions, impairment charges and losses on disposals or abandonment of assets and leaseholds, client reimbursements and fund redemption costs, severance and other similar expenses, but including partner incentive allocations, prior to our initial public offering, as an expense. Furthermore, Adjusted Net Income includes income tax expense assuming a blended corporate rate of 26%. We feel that it is important to management and investors to supplement our consolidated financial statements presented on a GAAP basis with Adjusted Net Income, a non-GAAP financial measure of earnings, as this measure provides a perspective of recurring income of the Company, taking into account income attributable to both Class A and Class B shareholders.

- Adjusted Earnings Per Share represents Adjusted Net Income divided by the actual Class A and Class B shares outstanding as of the end of the reporting period for basic Adjusted Earnings Per Share, and to the extent dilutive, we add unvested restricted stock units and non-qualified stock options to the total shares outstanding to compute diluted Adjusted Earnings Per Share. As a result of our structure, which includes a non-controlling interest, we feel that it is important to management and investors to supplement our consolidated financial statements presented on a GAAP basis with Adjusted

Earnings Per Share, a non-GAAP financial measure of earnings, as this measure provides a perspective of recurring earnings per share of the Company as a whole as opposed to being limited to our Class A common stock.
